Job Application for Full Stack Developer

Dear Hiring Manager,

With hands-on experience developing web applications using React, Redux, NodeJS, Express, and PostgreSQL, I offer the technical expertise On-apply is seeking for its full-stack developer position posted on StackOverflow.

About Me

I'm a skillful full-stack developer experienced in all stages of the software development cycle. Good understanding of web-related technologies such as HTML, CSS, SCSS, Javascript, ES6, Git, REST, build tools, Netlify, and Heroku for hosting. For the past 2 years, I have also been helping companies improve their online presence by designing and building their websites. Always taking into account good development practices, mobile-friendly support, and solid digital marketing strategies such as SEO and email marketing to increase visitor traffic and to further reach current clients.

In addition to that, I have a bachelor's degree in Mechatronics Engineering from one of the most respected universities in my country, was part of a group of selected students who traveled to Germany to do academic research and had a fulfilling experience implementing machine learning and deep learning in various projects during an online scholarship hosted by Udacity and Facebook.

Why Me?

As a fast learner and hard-working individual who adapts quickly to assess an organization's needs, I firmly believe my skills will make a significant contribution to On-apply's strengths. I am actively looking forward to expanding my knowledge, improve my abilities and obtain relevant experience in the industry in order to help create world-changing solutions.

I'd be thrilled to learn more about the full-stack developer position. If my skills match your requirements or you want to know more about me, please do not hesitate to contact me at info@guidosantillan.com. I am grateful to you for the time taken reviewing my application.

Sincerely,

Guido Santillán

Attached: Curriculum Vitae

P.S. — Perhaps we could also schedule a video call via Skype if you find it suitable. I am excited to show you how I can help On-apply's mission to make application processes easier and more efficient.

P.P.S. — I am currently living in Quito-Ecuador but I will be moving to Germany in the next month.
